

MWalsh Photography

Newborn Guide

These sessions are available either at my in-home studio in Shallotte or in the comfort of your own nursery or master bedroom. A variety of wraps, furs, and baskets are at your disposal. If you opt for an at-home session, I will also capture photographs of your nursery. Additionally, parents and siblings are welcome to participate in these sessions upon your preference.

Newborns are best photographed within the first 14 days of life. When you book your newborn session, we will pencil in your due date. After your baby arrives, we will set a specific date and time for the session (since due dates can be unpredictable). If your baby has already been born, please don't hesitate to contact Maranda!

Packages Include: \$350

1 hour session, edits, online gallery with print release

[You can add on for extra time/travel outside of Brunswick County]
